

Project Initialization and Planning Phase

Date	26 March 2026
Project Name	Smart Lender
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But Because	Which makes me feel
PS-1	A bank credit officer	Approve loan applications quickly	Manual verification is slow and time-consuming	Frustrated and under pressure.
PS-2	A salaried loan applicant	Get my loan approved quickly	The approval process takes too long and involves many checks	Anxious and uncertain
PS-3	A self-employed applicant	Apply for a loan based on my financial profile	My irregular income makes eligibility difficult to assess	Worried about rejection

PS-4	A financial analyst	Evaluate many loan applications efficiently	Manual review of every application is time-consuming	Overwhelmed during peak periods
PS-5	A bank manager	Reduce loan defaults while approving genuine applicants	It is difficult to identify high-risk applicants manually	Concerned about financial risk
