

No. of Functional Features Included in the Solution

Date	26 March 2026
Project Name	Smart Lender

Functional Features Overview:

This document lists all the functional features included in the project solution. Each feature is described with its purpose, implementation status, and contribution to the overall solution.

S.No	Feature Name	Feature Description	Module / Component	Status	Marks Contribution
1	User Registration/Login	Allows users to securely access the application.	Authentication	Done	High
2	Applicant Data Entry	Collects applicant personal and financial details through a web form.	User Interface	Done	High
3	Input Validation	Validates user input before processing the application.	Backend Logic	Done	High
4	Loan Approval Prediction	Predicts loan approval	Machine Learning	Done	High

		using the trained XGBoost model.			
5	Prediction Result Display	Displays loan approval or rejection instantly.	Result Module	Done	High
6	Model Integration	Integrates the trained machine learning model with the Flask application.	Backend / ML	Done	Medium
7	Responsive Web Interface	Provides an easy-to-use interface for applicants.	Frontend	Done	Medium
8	IBM Cloud Deployment Support	Enables deployment of the application on IBM Cloud.	Deployment	Done	Medium

Feature Summary

Metric	Count / Value
Total Features Planned	8
Total Features Implemented	8
Core / Must-Have Features	5

Additional / Nice-to-Have Features	3
Features Tested & Verified	8

Feature Category Breakdown

S.No	Category	Features in Category	Example Features
1	User Interface (UI)	2	Applicant Data Entry, Prediction Result Display
2	Backend / Logic	3	Input Validation, Model Integration, Loan Prediction
3	Database / Storage	1	Applicant Information Storage
4	API / Integration	1	Flask Integration with XGBoost Model
5	Security / Authentication	1	User Registration/Login
