

Customer Journey Map

Date	26 March 2026
Project Name	Smart Lender

Customer Journey Map

The Customer Journey Map illustrates the step-by-step interaction between the applicant and the Smart Lender system during the loan approval process. It highlights the user's actions, touchpoints, thoughts, feelings, process ownership, and opportunities for improvement at each stage, ensuring a smooth and efficient user experience.

Phase of Journey	Stage 1	Stage 2	Stage 3
Actions	Applicant enters personal and financial details.	System validates inputs and processes the data using the trained ML model.	User receives loan approval prediction, and bank officials review the result.
Touchpoint	Web Application (Input Form)	Prediction Engine (Flask + ML Model)	Prediction Result Dashboard
Customer Thought	"Will my loan be approved?"	"I hope the system evaluates my details correctly."	"I received my prediction quickly."
Customer Feeling	Curious	Hopeful	Satisfied/Relieved
Process Ownership	Applicant	Smart Lender System	Bank Officer
Opportunities	Improve UI and input guidance	Increase prediction accuracy	Provide approval reasons and recommendations
