

Project Executable Files

Date	15 March 2026
Team ID	-
Project Name	Smart Lender
Maximum Marks	3 Marks

Step 1: Submission Checklist

S.No	Item to Submit	Submitted (Yes / No / NA)
1	Complete source code (all files and folders)	✓ YES
2	README / Setup Guide (instructions to run the project)	✓ YES
3	requirements.txt / package.json / dependency file	✓ YES
4	Database schema / seed files (if applicable)	✗ NO
5	Environment configuration file (.env.example or similar)	✗ NO
6	Deployed application URL (if hosted)	✗ NO
7	APK / Executable binary (if applicable for mobile/desktop apps)	✗ NO
8	Dockerfile / Containerization config (if applicable)	✗ NO
9	Test files and test results	✓ YES
10	Demo video or walkthrough (if required)	✓ YES

Step 2: File / Folder Structure

```
SMART-LENDER/  
|

```

Step 3: Deployment / Access Details

Field	Details
Hosted / Deployed URL	http://127.0.0.1:5000
Login Credentials	Not Required
Platform / Hosting Provider	Local Flask Development Server
Repository Link	https://github.com/sandeepemmanuel10-blip/Smart-Lender
Demo Video Link	https://drive.google.com/file/d/14lWi5-xG1pRUkBiO0xZI1VosHG8GmS-_view?usp=sharing

Step 4: Run Instructions

1. Download or clone the Smart Lender project to your local system.
2. Open the project folder in Visual Studio Code.
3. Create and activate a Python virtual environment.
4. Install the required dependencies using : **pip install -r requirements.txt**
5. Navigate to the Flask folder.
6. Run the application using : **python app.py**
7. Open a web browser and visit : **<http://127.0.0.1:5000>**
8. Enter the applicant details and click the Predict button to view the loan approval result.

Step 5: Known Issues / Limitations

S.No	Known Issue / Limitation	Workaround / Status
1	Model accuracy depends on the quality of the dataset.	Improve by using larger and more diverse datasets.
2	Supports only the predefined input features used during training.	Additional features can be included in future versions.
3	Application is currently tested on a local Flask server.	Planned for cloud deployment and broader testing.
